

Personal Account (cont'd)

Create a new account	
First Name	<input type="text"/>
User Name	<input type="text"/>
Password	<input type="text"/>

You will have to create a User Name and password, but you do NOT need an email account.

Accessing the Database

You can access **Kids Search** from our library web site at:

www.antigopl.org

There are two different places on the web site to find **Kids Search**.

For new users:

At the home page, click on Langlade Kids.

From the Langlade Kids Home Page, look for **Homework Help** (the caterpillar on a mushroom).

Click here and you'll go to the Homework Help page. There you will see a dinosaur on the right side of the page. Click here.

There are several databases on this page. Scroll down until you find the **Kids Search** icon.

For returning users:

We have created a shortcut banner of commonly used databases on the home page. Click on "Kids Search" for this shortcut. You will be prompted for your library barcode number.

Content features of Kids Search:

Kids Search is designed specifically for elementary/middle school students according to their needs and search abilities. It combines a state-of-the-art search engine with a child-friendly, graphically-rich design that is both powerful and fun to use.

Kids Search makes it easier for students to look for their subjects of interest by automatically searching across many databases at the same time. Important features include a completely new, visually appealing look and feel; the ability to search by topic, subtopic, or keywords; the ability to sort results; the option of filtering search results by source type; and the ability to add search results, images, or links to a personal Folder.

Visual Help

See the other side of this brochure to learn how to find Kids Search. Once you're there, click on **Help** in the upper right corner. This will open a new page.

On this Help page, click on "Kids Search Tutorials" under **Welcome** on the left-hand menu.

Searching

On the Home page, enter your search terms in the **Find** field and click **Go**.

A search is run against all student databases on **Kids Search** and a Result List is displayed.

Your search terms are remembered in the **Find** field above the Result List. If images and/or video are available, they are displayed with the results. To view a specific source type (e.g., only **Magazines**), click the **radio button** below the source type.

- If you click the **Kids Search logo** or **Home**, you are returned to the Search Screen with all your search terms *cleared*.
- If you click the **Redo Search link**, you are returned to the Search Screen with your search terms, source-type selections and limiters *remembered*.

- If you click the **Detailed Search link**, you are taken to the Detailed Search Screen with your search terms, document types, limiters, and expander settings *carried forward*.

Search by Topic

You can also search by the broad topics on the home page, and then narrow your search with subtopics.

Mark any subtopics that you want and click **Go**. A Result List of articles related to your topics displays.

Personal Account

You can set up a *personal account* that allows you to save search results, persistent links to searches, saved searches, search alerts, journal alerts and web pages to a personal folder.

Click on "Sign in Here" in the upper right corner of the Kids Search home page. Then click on "I'm a new user."
